## About Travis County RoadSHARE

The Travis County Sheriff's Office is committed to keeping all Travis County residents safe. The diverse pool of people and interests helps make Travis County one of the coolest places to live. This is evidenced by the population explosion we have seen over the past decade.

It is even more important now that all passengers on the road - automobiles, bicycles, and pedestrians watch out for each other so we all get home safely.

To that end, Travis County RoadSHARE is a collaborative effort organized by Travis County Sheriff's Office to provide safety standards for cyclists and motorists of Travis County.
